## **Boy Scouts of America NASA Overnight!**

Space Center Houston engages Scouts in an interactive and hands-on learning environment. Participants will have an enriched experience in our overnights that teaches Scouts about the science, technology, engineering and mathematics involved with space exploration.

This is a once in a lifetime opportunity, my older son has done this - and wants to do it again! A behind the scenes, special "I camped in space" -not everyone can say that! -Such a fun and memorable time!

We went when we were Bears -and it was great! This night is a combined night and BSA will also be there (older scout Troops, as well as other Packs) -it's a special joint night -but each Den will complete their own specific requirement for STEM, pin, badge or loop 😊

If you or your child is interested, please pay **NO LATER THAN Jan 29<sup>th</sup>** (Pinewood Derby) so the reservation numbers can be adjusted -we have temporarily reserved 20 children and 10 adults.

Payable to Aaron (Treasurer) Venmo [@Aaron-Larson-22](#) Please list your name, your child's name, and Den. Thank you.
